

Special Competition  
**FACES OF LOVE II**  
**DEADLINE 30.06.2026**

For the publication  
“Universal Symphony III – Love Heals”  
by Prof. Dr. Yelda Özsunar

We are pleased to announce a Special Competition: “Faces of Love II”, created for the upcoming book publication  
“Universelle Symphonie III – Liebe heilt”  
(German edition of Universal Symphony III – Love Heals),  
a popular medical and interdisciplinary work  
by Prof. Dr. Yelda Özsunar.

Following the successful publication of the English edition Universal Symphony III – Love Heals, realized in collaboration with the artists of Poetry of Science and Art, a dedicated Special Edition for the German language edition is now being planned. This new edition continues the dialogue between science and art, opening space once again for visual interpretations of love as a healing force.

This book explores 21 aspects of love and their profound influence on human health, well-being, and healing, combining scientific insight, poetry, stories, and artistic expression into a unified work.

Selected artworks will be featured:

- on the book **cover ( 1. Prize)**
- and for each of the 21 chapters,  
visually interpreting one specific aspect of love.(**21 Chapter Awards**)

In addition, all selected artists will be presented at the end of the book with a short biography of up to 80 words, including their contact email and links to their portfolio or social media channels.

## About the Book

### Universelle Symphonie III LIEBE HEILT

(Universal Symphony III – Love Heals)

is a unique interdisciplinary publication by **Prof. Dr. Yelda Özsunar** that unites medicine, neuroscience, psychology, poetry, storytelling, music, and visual art.

The book explores **21 different aspects of love** and their influence on human health, emotional balance, and healing processes. Scientific and popular medical insights are interwoven with the author's original poems and short stories, many of which are accompanied by music specifically composed for this book project.

Art is an essential part of this concept: visual artworks serve as emotional and symbolic gateways into each chapter, translating scientific and poetic content into a universal visual language. In this way, the book creates a holistic experience that speaks not only to the intellect, but also to the senses and the soul.

The inclusion of visual art in a medical context reflects the book's core philosophy: healing is multidimensional, and love expresses itself through science, art, sound, and story alike.

## Who Can Apply

This open call is open to international artists working in all visual art disciplines, including but not limited to:

Painting  
Photography  
Digital Art  
Mixed Media  
Illustration

The application is free of charge.

Artists whose works are selected for publication will be asked to pay a small, one-time processing fee of 40€

## Submission Requirements

To apply, please prepare the following information:

- Artist name
- Email address
- Website and/or social media links
- Artist biography (maximum 500 words, including artistic highlights)
- Artwork(s) that conceptually and emotionally relate to the chosen aspect of love

## Artwork Submission Guidelines

- You may send us up to 10 artworks per aspect of love
- Each of the 21 aspects requires a separate submission form
- If you wish to apply for multiple aspects, please submit a new form for each one

**DEADLINE 30.06.2026**
